How do I request a group change?

If the group listed for a plan is incorrect and you want to request a group change, you will need to get the Group Code from a plan administrator. Please reach out to your plan and not Miramar:Agent support as the plan has to approve this change.

6 9 6 9 **NOTE:** The group code is NOT the same as a program registration PIN code. A PIN code is associated with a particular program and group, but a group code can be used to request a group change at any time and is static for that group.

Once you have the Group Code, click **Change Group** next to the group you wish to update.

IV. PROGRAM NAVIGATION

To take action in an active program, go to the Active Programs widget located at the top of the Agent Dashboard.

To the right of the program name, you will see a green button indicating the next action required. If you have not yet started the program, click the green **Start** button to begin the program.

NOTE: If there are actions listed but no green button, this means there are no agent-facing steps for you to complete. The program is waiting for outside information such as plan administrator action, document review, appointment confirmation, background check results, etc. Please check back regularly to see if you have any actionable steps until the program is complete.

How do I know if I have completed a program?

You may find that when you log in to your agent dashboard, a program you had previously been working on is now no longer showing on the dashboard. This most likely means you have completed the program. To verify, click **Programs** from your dashboard menu to see the status of your program.
