Re: Termination of Appointments

Dear

In an effort to continue to stream line our processes and reduce the number of appointments in our system, we are conducting a review of the activity of all of our current legal entities and forecast product presence in the near future.

Through this review, we have concluded that we currently do not have any product offerings in the following states and under the corresponding appointing legal entities and/or specified line of business:

State	Appointing Legal Entity	Line of Business	Effective Date	Term Reason
Missouri	Aetna Health Insurance Company	Accident & Health	10/19/18	Legal Entity/Appointment Termination Only

Please note that this termination will not impact your current Producer Agreement status or any other appointments you may have with our company.

If you have any questions or concerns, please contact our office at the number above.

Sincerely,

Licensing and Appointment Administration Unit
