Why Certify?

The Centers for Medicare & Medicaid Services (CMS) requires plan sponsors to provide training and testing on Medicare rules, regulations and compliance-related information on the products they intend to sell.

You are required to complete annual Medicare and product certification if you are responsible for marketing, selling or servicing PriorityHealth.

Use the NPN look up feature (searching by SSN or by license number) for your NPN:

NPN Lookup

The National Producer Number (NPN) is a unique number that identifies each producer in the Producer Database (PDB). It was created to provide a solution to privacy issues surrounding the use of the Social Security Number.

The NPN is up to a 10-digit number, without leading zeros which is assigned to individual producers and some agencies. Producers and Agencies have their NPN's assigned automatically at the time of their addition to the PDB.

To find your NPN, use one of the search options below:

Please enter the Writing Number provided to you after becoming appointed. Agents must be appointed to become certified to sell Priority Health MAPD plans. If you have not been assigned a Writing Number, please contact our licensing department. With the transition to Epic, writing numbers now begin with '1' instead of 'B.' If yours still shows a 'B', replace it with a '1' before entering it here (Example: B12345 → 112345). If it has already been updated, no further action is necessary.
